

## *What We Do...*

When community budgets get cut, libraries are often the first to experience the negative effects. Our goal is to provide the Tualatin Library the financial support and security necessary for its future viability. We aspire to enrich the capabilities, resources, and services of the Library by securing funds needed for state-of-the-art devices and technology-based education.

## *The Importance of Libraries...*

The library is the centerpiece of our community. The resources provided by libraries inspire interests of all ages, which is why it is imperative that libraries not only continue to be preserved, but also continue to thrive and grow. There are very few, if any institutions that provide the vast amount of free services and programs for citizens that libraries do. Your donation will help the Tualatin Library further innovate and provide future services and programs that are beneficial to the community and help enable others to reach their full potential.
